

Program Objectives:

- This qualification reflects the role of a variety of workers who use a range of factual, technical and procedural knowledge to provide assistance to health professional staff for the care of clients. Health services assistance involves the worker in direct client contact under supervision.

The Key Features of this Program are:

- This program is designed to provide training for people to enhance their continued education and employment prospects through the development of skills and knowledge.
- Students have access to hands on training in a simulated environment, well preparing them for success and alleviating any stress associated to using equipment before entering the workforce.
- This program enables students to gain practical experience working in an Aged care environment. This provides opportunities for students to consolidate their learning.

This Course Prepares you to Work in Job Roles such as:

- Patient Support / Care Assistant / Hospital Assistant
- Assistant in Nursing
- Ward Assistant / Wards Person
- Orderly

The Entry Requirements for this Program are:

- Successful completion of a Certificate III level Pre-Training Review as per the enrolment process.

The Training is Conducted by:

- Classroom face to face sessions lead by a trainer
- Student learning material
- Practical experience in simulated environment
- Collaborative learning - classroom discussions
- Supervised practical placement hours

The Assessment will be:

- Demonstration of knowledge through a combination of written, practical and verbal assessments
- Demonstration of activities in an appropriately simulated environment, in an appropriate range of situations
- Practical placement assessment in an aged care facility.
